

GO FROM DAY TO NIGHT WITH KEY STYLE PIECES FOR SUMMER

Published May 15, 2012 | By tmi

Looking to put together easy, yet fashionable summer styles? Pick one or two staples and build around it with tribal prints, brights and cute shoes and go from day to night in a snap.

A great way to pack for a vacation is to pick a few main staples like a great dress that can be both casual and dressy, or a great white shirt or printed skirt and mix up things up with accessories to make them look like two different outfits.

From bold colours to cool prints—the summer styles from Reitmans make it easy to one-stop shop and add to your summer wardrobe or if you're planning a quick getaway.

Take inspiration from Reitmans by taking one key item and putting together a fashionable outfit that can easily transform for a casual day to a more dressy night out.
