STYLE

James Bond Fashion Show

How does James Bond come off looking so suave and dapper? Fashion producer **Tara Williams** shares her tips on getting your man the tailored and classic looks of 007.

In the latest film *Skyfall*, most of Bond's clothing is from designer Tom Ford. All the looks Tara pulled are from **Tip Top Tailors!**

Sportswear

Look for Versatility. Nylon works great for wind and rain, and can be worn through various seasons. Also versatile, a great pair of dark denim can be worn casually or dressed up.

Tailored Daytime

Look for mixed textures and layers. Well-fitted, structured pieces give that perfect tailored look.

Daytime Suit

Look for a well cut suit that's more tailored and fitted to the body.

The Coat

Look for classic cuts and clean lines. This will easily take you from day to evening.

The Dinner Jacket

Look for a jacket that has a bit of a sheen or lends itself to a special occasion. Keep things simple. If wearing a pocket puff, there's no need for a tie!

The Tux

The tux is the ultimate in style and sophistication. Look for a smaller lapel and a tailored cut.
