

# Champagne Moods

"Three be the things I shall never attain: envy, content, and sufficient champagne." – Dorothy Parker

## Zara #dearCanada

Yesterday was a landmark day for Canadian fashionistas as we finally saw the extension of Zara's online shopping to Canada. I am actually pretty embarrassed by how happy this made me! I am a huge fan of Zara and have been looking forward to this for awhile. The store at home often has damaged and make-up spotted items from people trying on the clothes. I always fall in love with something only to see that, upon closer examination, a button is loose, the collar is spotted with foundation, or the lace is torn. Being able to get something straight from headquarters means no more hearts breaking at the store. In honour of this event, here are some of the Zara items that you might want to check out for your inaugural Zara online purchase. (The good news is that standard shipping is reasonable too – free for any purchase over \$50.)

Wishing you the best of everything,
