Zara has officially launched their [Canadian online shop](#), which is pretty awesome since paying duties sucks. I've always found perfect long lasting statement pieces from Zara – striped leggings, a herringbone overcoat and a bunch of t-shirts I've had for years that haven't disintegrated through heavy wear.

Zara sent me a little gift card love in the post, so I'll blog about the booty I end up with.

Till then, [follow me on Instagram](#)
