

## ZARA LAUNCHES ONLINE STORE (AND WE HAVE OUR SHOPPING LIST READY!)

### SLIDESHOW

Shopping online late at night is a guilty pleasure of ours so when we heard that *Zara* will be launching an online store on March 6th, it was like Christmas at the *Glow* office. Here's what we're putting on our shopping list and the spring beauty trends we'll be rocking with the looks.

### LOOK 1

**What:** *Combination Jacket with Zips*

Monochromatic pieces were seen all over the runway for Spring/Summer. Brands from A.L.C. to Prabal Gurung took part in this trend. This jacket is the perfect white staple for your closet this summer. It is also a great way to take part in the trend and the zipper detailing adds some edge.

**Beauty Note:** A great make up pairing for this look would be a clean face with a thin brown eyeliner like we saw on the girls at the Rag & Bone runway show.

**Glow Pick:** *Stila Smudge Pot gel liner* in brown is perfect to recreate this look. It can also be used to create a smoky eye and doubles as an eye shadow!

## LOOK 2

**What:** Zara Striped Combination Dress

This royal blue combination dress is a great day to night piece. This was a popular color across the board showing up on runways like Diane von Furstenberg and Proenza Schouler.

**Beauty Note:** You can glam up this look with a classic red lip as seen on the Burberry runway or pair the red lip with a black liner like team at Jason Wu did.

**Glow Pick:** For a red lip, **Nars Lipstick in Afghan Red** is an excellent choice. The creamy texture goes on smooth and has Vitamin E for extra moisture. **Shiseido Automatic Fine Eyeliner in BK901 Black** has a thin brush that easily allows you to draw bold or fine lines. Added bonus – it lasts all day and is smudge proof.

## LOOK 3

**What:** Zara Balloon Sweater

This season sweatshirts are making a comeback in a big way and they are a great way to add a pop of color to your wardrobe. The balloon sleeves add a little something extra to this sweater. We saw similar sweatshirts make an appearance on the Acne Studios runway.

**Beauty Note:** Since you have already taken the plunge with color, we suggest taking a cue from the Stella McCartney S/S13 beauty looks. Use an aqua or jade liner to make your eyes really stand out from the crowd.

**Glow Pick:** **Nars Larger Than Life Long Wear Eyeliner in Abbey Road** is a great color to try when taking the jump into colored eyeliners. It provides an intense color that lasts for 12 hours without caking.

## LOOK 4

**What:** Zara Trousers with Elastic Hem

If neutrals are more your thing, there are plenty of options this season in khaki and army green. We saw these colors on a variety of pieces by Band of Outsiders and Chloé. These trousers are classic but look incredibly comfortable thanks to the loose fit.

**Beauty Note:** Strong brows were prominent on the runway this season and fit well with this relaxed look. The beauty team at the Alexander Wang show perfected this look by keeping the make up minimal and adding a nude lip.

**Glow Pick:** Estee Lauder has created the **Automatic Brow Pencil Duo** and it is meant for creating strong brows. The duo has a coloring pencil on one side and a brush to blend and style on the other. For a nude lip, we recommend **Clarins Rouge Eclat in 15 Nude Caramel**. An added benefit of this lipstick is that it contains anti-aging properties.
