

# The week's news, views and sales

By ANDREW SARDONE

## Another Distillery debut

Mark early May in your calendar for the opening of Fluevog's ([fluevog.com](http://fluevog.com)) new Toronto location in the Distillery District. Details are still being worked out, but the store will have a Victorian vibe to connect the Distillery's past with the turn-of-the-20th-century-inspired touches often found on Fluevog shoes. As for the footwear, we can't wait to shop for spring arrivals like the Arch Angel tassel loafers, Daily Miracles zebra-print booties and a grouping of platform espadrille lace-ups in black, neon yellow or bronze.

## More retail launches

Uncle Otis (26 Bellair, 416-920-2281, [uncleotis.com](http://uncleotis.com)) has teamed up with Levi's Made & Crafted ([levismadeandcrafted.com](http://levismadeandcrafted.com)) on a shop-in-shop that will be open at the Yorkville menswear store for the spring/summer season. And the newest international retailer to launch e-commerce in Canada is fashion-forward outfit Zara ([zara.com](http://zara.com)). Its Canadian website is now open for shopping, with lots of stylish spring buys, including striped dresses and brogue-style sneakers.

## MADE it

It's been barely a month since Design Week, but we're already craving another opportunity to check out sweet local design. Luckily, MADE's (867 Dundas West, 416-607-6384, [madedesign.ca](http://madedesign.ca)) newest exhibition, Surface Forms, by Scott Eunson, opens March 14. Look for sculptural cellular pieces made from Wilsonart laminate as well as a new pendant light design. The show continues until May 4.

## It's a clothing collection!

Pregnancy clothing spot Belly Maternity (615 Mount Pleasant, 416-440-1734, [bellymaternity.ca](http://bellymaternity.ca)) is proud to announce the birth of its new collection, BELLY. The lineup of wardrobe basics in bright hues includes wrap-style dresses, more formal LBDs, blazers and stretch jersey tops. Find the styles in store now or online at [eluxe.ca](http://eluxe.ca).
