POSTED ON MARCH 6, 2013

If you're one of those people who's just too damn busy to leave their desk while the doors of retail outlets are still open, we have excellent, excellent news for your wardrobe. [Zara.com](#) launches TODAY, and now you can get your Zara fix delivered right to your door.

This is great for a lot of reasons. From workplace separates to night-out favourites, Zara is a shopping go-to for us. And as well all know, there's so much great stuff in store that sometimes, keeping tabs on all of it can prove impossible. Enter [Zara.com](#), where you'll never miss a potential new wear-it-everyday piece. [The New This Week](#) section will keep it fresh, but of course you can browse (and SHOP) it all on the site. Now if you'll excuse us, we've got some shopping to do.
